

Here is the main page of your administrative panel. This is what you will see when you first time logged in.

First, you need to install our software on your computer, that will be a gaming terminal. To do that, click “Downloads” on top menu.

Downloads

Instructions

Image

Burner

Cashbox

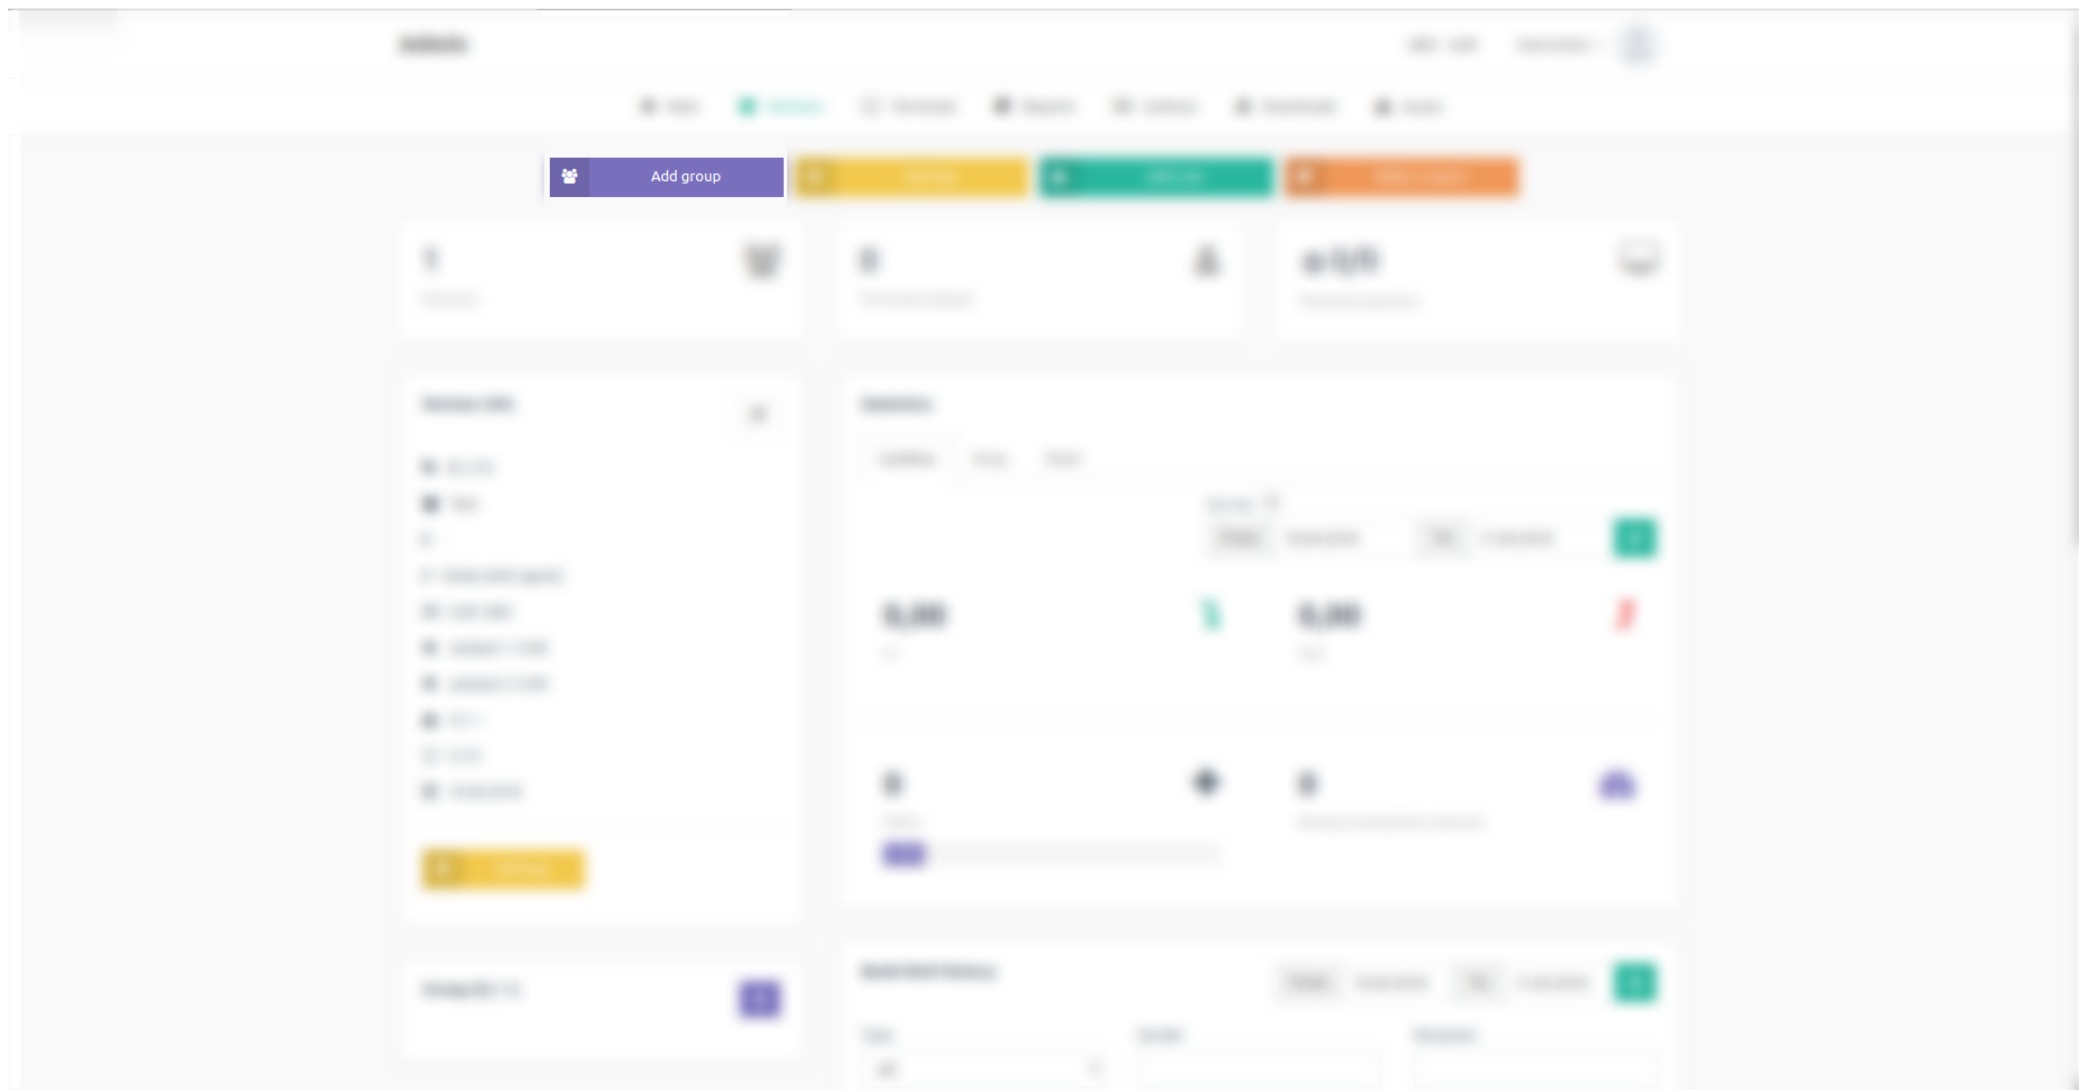

Steps to start the work:

- 1: Download x64 system [image](#).
- 2: Download installation drive [creator](#).
- 3: Plug in an empty pendrive into the Windows machine (* **This pendrive could be created once for many terminal setups**).
- 4: Launch the program from step 2, select downloaded image and your pendrive, click "Write". [Video Instruction](#)
- 5: After the installer creation is successfully done, plug in the pendrive into the terminal you want to install the system on.
- 6: Boot into the BIOS menu and proceed the boot from the pendrive. [Instruction](#)
- 7: After the installer is booted, click "Install" button and select a drive you want to install the system on (could be another pendrive or internal hard drive).
- 8: After the previous step is done, remove the installation pendrive and boot the terminal normally.
- 9: Wait till the final setup is completed (terminal will be rebooted once). You'll see 4-digit code on the screen and will be able to link the terminal to the hall.

Minimum requirements for equipment:

- **RAM:** from 2GB, recommended volume - 3GB.
- **Video:** built-in: Intel HD Graphics 4000/5000, external: NVIDIA (Supported [here](#)), ATI Radeon.
Probably, it will turn out to use others, but it is necessary to specify in advance.
- **Processor:** from 1.5 GHz.
- **Hard disk drive:** from 16 GB.
- **Bill dispenser:** Puloon LCDM-1000/2000.
- **Bill acceptor:** CashCode SM, CashCode MFL, SMART Payout NV200, ICT.
- **Card reader:** SL500.
- **Cheque printers:** CUSTOM VKP80, Custom TG2480.

You will see a page with downloads and instructions how to install our software. Just follow them.

While your terminal is installing, you can create a gaming hall where terminals should be added. To add a gaming hall or a new group of gaming halls, click the purple button “Add group”

Create

Name of the new group or gaming hall

Description (optional)

Type of user (**Senior Partner** – all rights, **Senior Partner (without math)** – all rights, but cannot change math setting, **Partner** – cannot change any setting on gaming halls or terminals and cannot create new users)

Node – group of gaming halls

Game – gaming hall (you can create terminals only here)

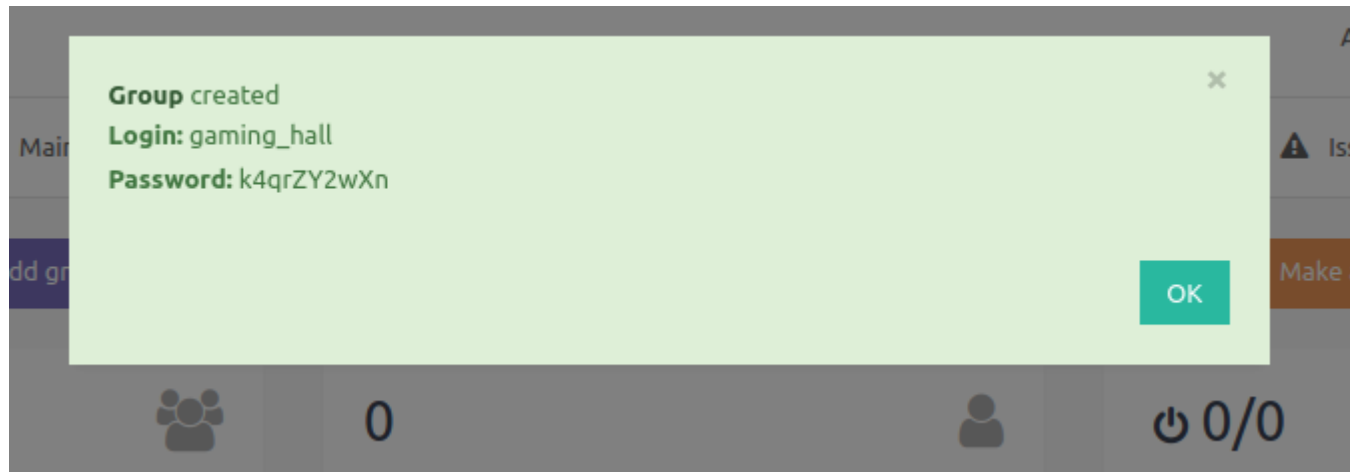

Login

Currency

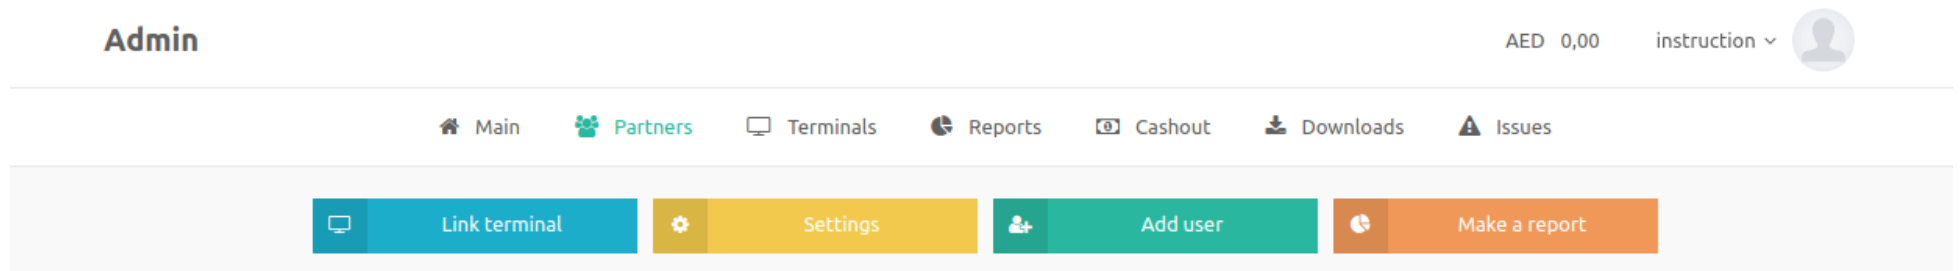

Region where the gaming hall is placed (optional)

City where the gaming hall is placed (optional)

Address where the gaming hall is placed (optional)

After creating a gaming hall, click “Group” to go to its page.

On the gaming hall page you can create terminals. To do this click the blue button “Link terminal”

Link terminal

>_ Enter code

✓ Finishing

Code

123456

After the terminal has finished its installation, you will see a 4-digit code on its screen. Type it here.

Name

Terminal#1

Name your terminal.

Type

Indoor terminal ▾

If **“Outdoor terminal”** is selected, you can connect bill acceptor and dispenser to the terminal.

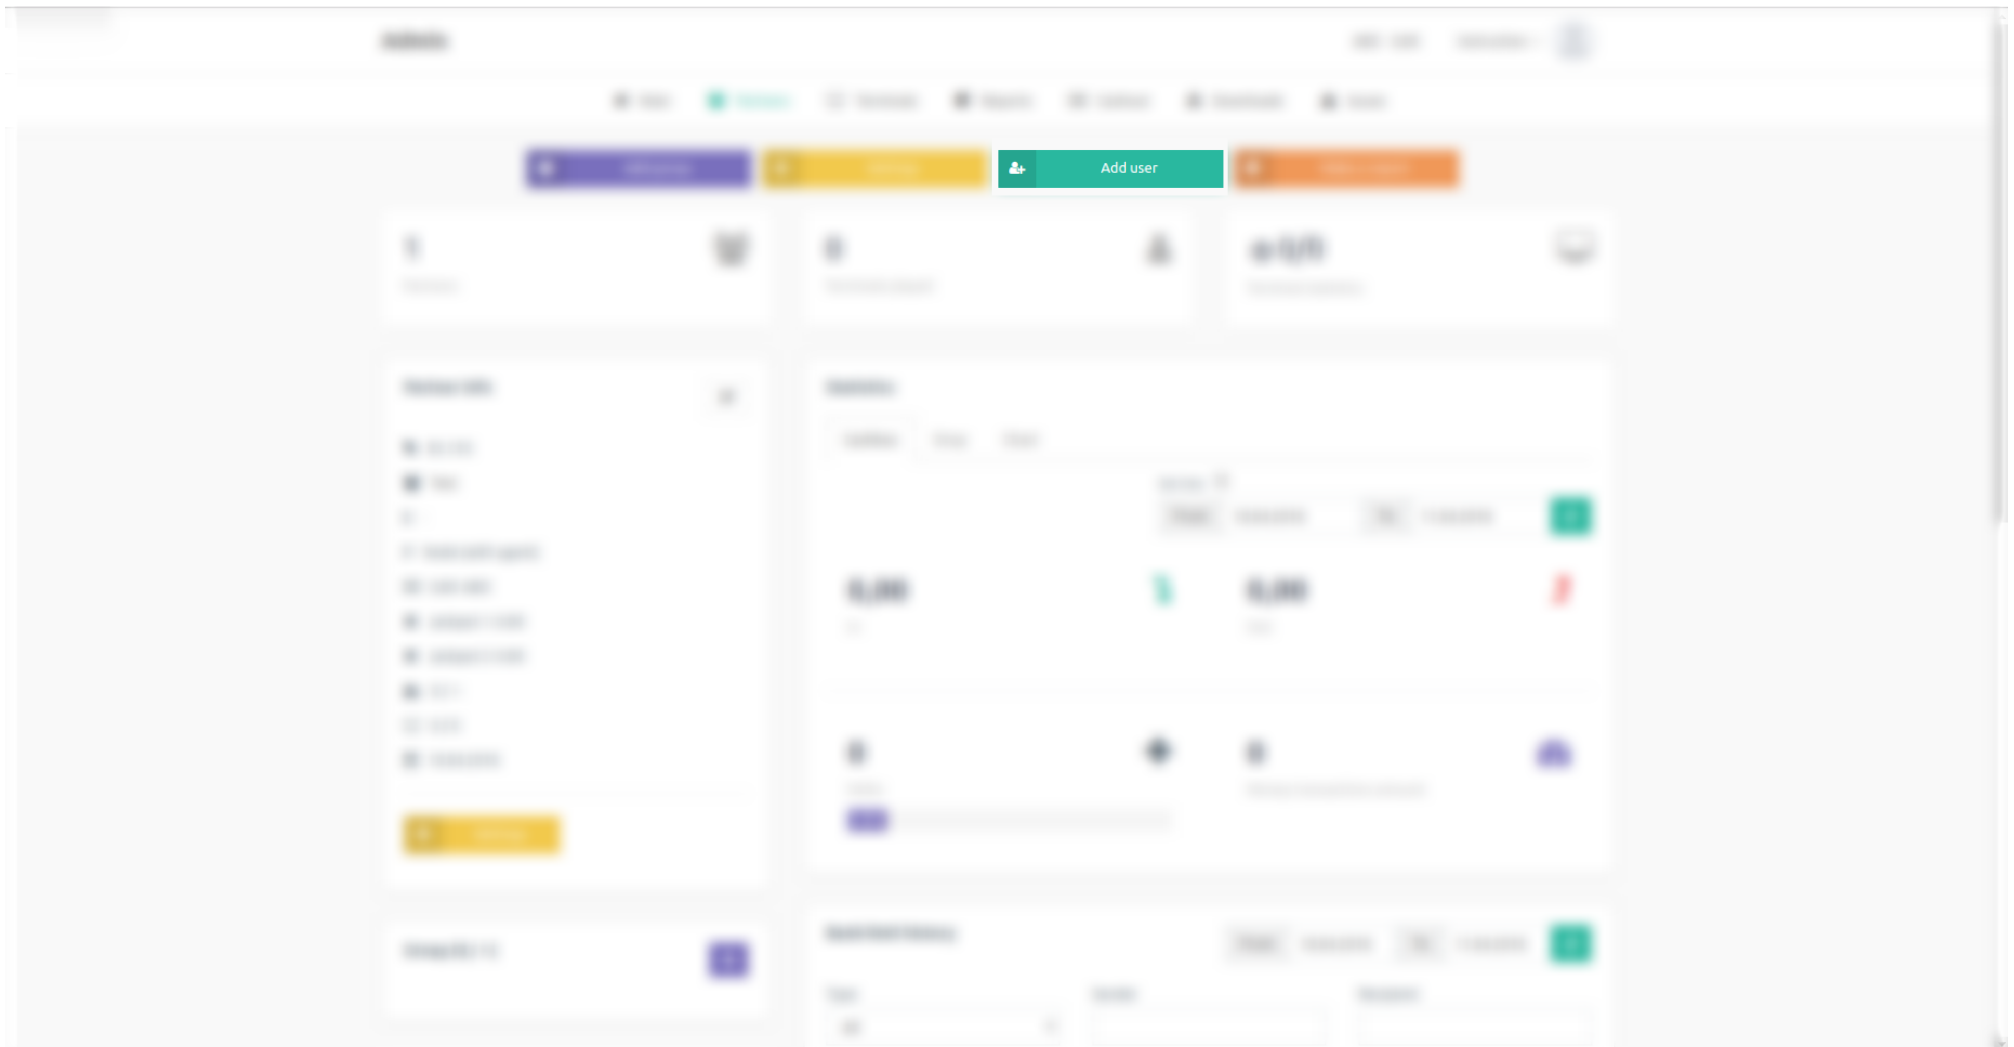

If **“Indoor terminal”** is selected, there is no such opportunity. After pressing “Collect” client will see a sign “Cash Button Pressed. Wait For Attendant”

Back

[Back to partner page](#)

Next

After pressing “Next” terminal will be successfully created and will start downloading software (~50 mb). After that terminal will be fully ready to use.

To add a new user (cashier, for example), click the green button “Add user”
